REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record, neither singly nor in combination, disclose a heat rejecting radiator for selective connection to receive liquid coolant from the engine, reject heat from the coolant and return the coolant to the engine when outside temperature is above a predetermined value, a second heat exchanger positioned within the building and having a third flow path for selective connection, alternatively to the radiator, for circulation of liquid coolant from the engine, and a fourth flow path, for selective connection to receive the heating water from the heater prior to circulation of the heating water through the second flow path and first means selectively operable to control flow of the coolant between the radiator and the third flow path and second means selectively operable to control flow of the heating water between a direct connection from the heater to the second flow path and connection to the fourth flow path and thence to the second flow path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The provided references are representative of the state of the art that is applicable to the applicant's invention. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Derek S. Boles at (571) 272-4872.
